Truckmate Geotab Drive Integration

ZenduIT has partnered up with both Geotab and TMW Systems in order to provide a complete, easy-to-use integrated solution that interfaces with both platform

With the Truckmate Drive App drivers are able to update their customized Truckmate pickup and delivery forms from within Geotab Drive. Status and form updates are immediately sent directly to TMW Truckmate software for dispatchers to view status and delivery confirmation. As a result dispatchers are able to quickly respond to changes in the field and improve customer service and provide more timely and accurate billing. Geotab-Truckmate integration also provides unique features in Automatic Driver Arrival Prompts, Freight Bill Status Updates on Dispatcher Maps, Dispatcher Load Offer Dashboards, and much more with powerful Geotab Rules and Reporting.

Real Time TM Work Order Updates
Get real-time updates on work orders within Truckmate based on arrival at customer zones and/or work order form completion.
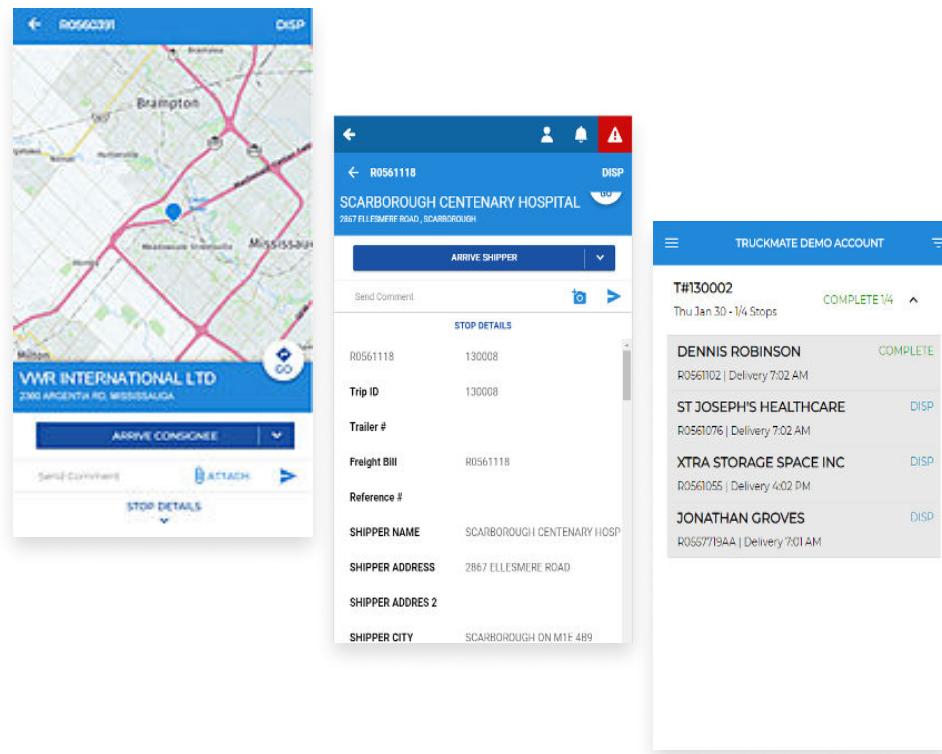

Geotab Data Sync

Dispatchers are able to view the drivers HOS availability as well as the vehicle GPS location directly from truckmate

Truckmate Forms to Geotab Drive
Drivers must complete your Truckmate Forms/Statuses in your required sequence to close the Freight Bill. Simple logic prevents driver error.

Streamline and Improve Service
Geotab Drive to Truckmate Status Updates allow dispatchers are more responsive to customer demands and updates. Faster updates allow businesses to invoice and get paid faster.
